

## **Air Force Institute of Technology Department of Operational Sciences**

### **Graduate Research Doctoral Assistantships**

The Department of Operational Sciences, Graduate School of Engineering and Management, of the Air Force Institute of Technology, invites applications for doctoral research assistantships for study leading to a Ph.D. in Operations Research. These renewable assistantships cover 12 months, pay up to \$36,000 for 50% effort, and include full tuition, subsidized health care, and travel to a technical conference. Total value potentially exceeds \$60,000 per year. A rigorous background education in science or engineering is required for Ph.D. program eligibility. A master's degree is preferred, but exceptionally qualified holders of a bachelor's degree may be considered. United States citizenship is required.

Final decisions on assistantship awards are based upon each of the following:

1. applicant academic eligibility,
2. applicant interest in the research area covered by the assistantship,
3. faculty selection of the applicant for the research area and assistantship and,
4. funds availability for the assistantship.

Continuation of awarded assistantships is based upon recipients' progress in the research area and funds availability for the assistantship.

AFIT is the premier institution for defense-related graduate education in science, engineering, advanced technology, and management for the U.S. Air Force and the Department of Defense (DoD). It is located at Wright-Patterson AFB near Dayton, Ohio, the birthplace of controlled powered flight and home to the Air Force Research Laboratory and five of its ten directorates. AFIT has research partnerships with each of these directorates as well as with DoD agencies throughout the country. As a member of the Dayton Area Graduate Studies Institute, AFIT also enjoys close academic and research relationships with other major universities in Ohio.

Consideration of applications is done continually. There is no application fee. A complete description of AFIT application requirements and the application process is available via the web at <http://www.afit.edu/en/Admissions/>. Information on the Operations Research Ph.D. program is available at <http://www.afit.edu/en/ens/departprograms.cfm?a=doctoral>. For additional information, please contact Dr. Raymond Hill, [raymond.hill@afit.edu](mailto:raymond.hill@afit.edu), (937) 255-3636, x7469.

The Air Force Institute of Technology is an equal opportunity/affirmative action employer.
