

ACP FAQ

How much does the program cost?

There are no tuition fees or other charges for members of the US intelligence community and its supporting elements taking the in resident courses. ACP Distance Learning courses are charged the published AFIT tuition rates. Contact ACP Program Coordinator for payment arrangement information. All course materials are provided to students at no charge. TDY costs are the responsibility of the sponsoring organization. Seats are very limited with priority given to DoD employees. All applicants are rank-ordered based on submission date of required documents. Students will be sent prearrival information and final confirmation of enrollment two (2) weeks prior to session start.

Are GRE scores required?

No. Because you are not seeking a degree as a result of this program, GRE scores are not required.

Will these credits apply toward my degree?

Possibly. The courses are 500-level courses, and may apply toward an MS degree. Contact Dr. Ron Tuttle, Program Director for more information.

Can I take just part of the program?

Yes. OENG 530, IR Fundamentals, is a prerequisite for the remaining courses. Students may take courses over multiple sessions toward earning their Certificate in MASINT IR/SAR, in addition to successfully completing a comprehensive exit exam.

Do I have to submit official transcripts in order to enroll?

Yes. Regardless of when you completed your education, the area in which you received a degree, or whether you completed all coursework toward a degree, you must provide official transcripts from the college or university you are currently enrolled, or from the **highest degree granting institution**, to the Program Coordinator.

Whom do I contact with other questions?

Please contact the Program Coordinator for all questions.
