MEMORANDUM FOR AFIT STUDENTS 16 Mar 06

FROM: 88 SFS/SFOXI

SUBJECT: Installation Entry Procedures

1. Wright-Patterson AFB is a closed base and entry is controlled IAW AFI 31-101 and WPAFB Supplement 31-101. All vehicles entering WPAFB will display either a base decal or an AF Form 75/Vehicle Pass. This policy expedites personnel entering and ensures only authorized vehicles are allowed on the installation.

2. If you are TDY to Wright-Patterson AFB and are driving your privately owned vehicle, and it is properly registered at your home station, you will be allowed access through any of the installation gates. If the vehicle is a rental or does not have a base installation decal on it, you will need to report to one of the Visitor Centers, located at Gate 1B (0700-1600 M-F) or Gate 12A (0600-1800 M-F and 0800-1600 Weekends), to get a vehicle pass for the duration of your TDY.

3. If you have any questions concerning Entry Procedures for Wright-Patterson AFB you can call DSN 787-6506 or (937) 257-6506.
