

Project Management Professional (PMP) Exam Preparatory

Objective

For each student to access quality preparatory material to pass the Project Management Professional (PMP)® exam. Students who take this preparatory track should intend to take the PMP® exam within 1 year of completing their study material.

Description

Students will gain access to reputable, third-party preparatory material for the Project Management Professional (PMP)® exam. Once approved, students will be provided access to the prep materials. Upon activation, students have 1 year of access. Funding for this track is based in the current Fiscal Year, so students need to ensure they activate their access code within 30 days.

Requirements

Members can only take Project Management Professional (PMP)® Exam Preparatory or Principles and Practices of Engineering (PE) Exam Preparatory once during their career. Must be an Active-Duty, 32E Civil Engineer Officer or an AFRC 32E Civil Engineer on Title 10 Orders.

Eligibility

Active-Duty Civil Engineer Officers (32E) Officers O-1 through O-6 and Air Force Reserve Command Civil Engineers (32E) on Title 10 Orders.

Prerequisites

None required to take this track, but the student must meet the Project Management Institute® project management experience required to take the exam (5 years of project management experience).
